formed by *Stipa* sp. *Danthonia* sp, *Dandelion* sp
and wild *Salvia* to form an open patchwork mosaic
with scalded ground. Sight records - *A. pusilla*,
Eophantus - *Peakesia* sp. Soil yellowy-grey

27773 Murrumbidgee

27778 *E. meliodora* on hillside, scald mosaic on
Austroicetes pusilla
grassland, cover comprising *Stipa* - *Danthonia* sp.

together with *Bothriocloa*. 2nd *A. pusilla*. Soil yellowy-red.

27785 Wallendbeen

27786 Turned off to Temora.

27792 Hillside heavily timbered with *Euc. sideroxylon*, *Kaessia fuscomaculata*, *Macrotona australis*, and some *Euc. microcarpa*, two acacia's as shrub components. Soil red and very gravelly with *M. sp.*, *Austroicetes pusilla* pasture composed of *Danthonia* sp some *Stipa* and an *Aristida* sp as occas. in a large patchwork mosaic.

27800 Open grassland area with scattered *Euc. sphacelata*, *quadrilobus*, *Macrotona* sp., *Kaessia microcarpa*. Pasture composed of *Danthonia* sp, *fusca*, *Cryptobothrus*, *Chrysophorus*, *Phaulacridium* or *Atriplex* sp, *Chloris truncata* and a Composite sp., *Monistria pustulifera* (j). *Austroicetes pusilla*. *Brachycombe* sp. *Monistria* taken from the Composite.

27804 Stockingbingle.

27811 Open grassland clothed with *Themida*,
Poa hirsuta fuscocomiculata, *Macrotona* sp.
Danthonia, *Bothriocloa* sp. Sight records.
Chortocetes, *arvida* = *occalius*.

27813 Partly cleared *Euc sideroxylon* assoc. with
Macrotona australis, *Sonchiza macrostomum*,
heath sp in clumps and young *Cassinia* = *acacia*
Macrotona sp., *Peucedanum fuscocomiculata*,
sp. as regrowth. Soil red and studded with quartz.
Cryptobolus chrysophorus, *Pica laevis* sp.,
Grass cover - mainly *Danthonia* - a few sp. Nymphs
Parabittus sp., *Kyacris* sp. (D). *Austroicetes pusilla*
of *Kyacris* abundant.

27826 Temora - thence along Griffith Rd.

27831 *Euc sideroxylon* assoc. with *Cassinia* and
Sonchiza macrostomum, *Phanacridium* sp., ~~*Parabittus*~~
two *acacia*'s (phyllode & small leaved). *Danthonia*
~~sp.~~ *Kyacris* ~~sp.~~ *interpres*
= possibly *Poa* sp in patches to form ground cover.
Wind still high at least 4 B.S.

Returned to Temora at 27838

1-3-56

Temora - W. Wyalong route.

Left Temora at 27838. Day heavily overcast
with high wind BS 5.

27844 Open grassland area, mainly *Chloris truncata* with small patches here & there of *Danthonia*. Community *Euc. microcarpa* and *Caltrop glauca*. Sight records only - 1 adult *Chortocates* - 2 nymphs of *Chort.*
Soil red & compact.

27848 Un-named small Township.

27849 Red compact soil in a *Caltrop glauca* assoc. *Oedalus australis*, *Austroicetes pusilla*. Pasture short, main *Chloris truncata*, with some of both *Danthonia* and *Stipa* present. Odd patches of *Sporobolus* and *Lida* sp. *Chort.* as sight record both adults & nymphs

27851 Mixed timbered area of *Euc. microcarpa* and *Euc. sideroxylon*, with understory of ^{*Dodonaea*} *Acacia* shrubs and *Euc.* regrowth. Pasture mainly patchy *Danth*; soil reddish with quartz pebbles. Odd bushes of *Kochea microphylla*. Sight records only *Lyoneae*, *Oedalus* and *Pycnostictus*.

27854 Unidentified small Town.

27857 Open grassland, *Chloris truncata* and
acicularis forming main cover, with *Danth. Stipa* as
subordinate sp. *Euc microcarpa* and *Cas. Luhrmanni*.
Soil red and compact but becoming heavier. Slight record
only of Chort.

27862 Barmesman

27868 Compact red soil bordering on heavy supporting
Macrotona sp.
Euc. microcarpa and *Casuarina* sp. Pasture of mixed
grasses, *Chloris truncata*, *Stipa*, *Danthonia*, *Imbricaria*
and *erogrostis lacunaria*; Slight records acrida,
oedolus, peakesia.

27873 Red gidgee country. *Cas. cristata* associates
Stipa and *Danthonia* sp. with *Chloris truncata*
odd bushes of *Kochia microphylla*. Started raining
wind still blowing strongly. Slight records only
Chort, peakesia and acrida.

27879 ~~Wyalong~~ Wyalong - turned off to Mareden.

27880 Slight rise bearing *Euc. populifolia* *Euc. meliodora*
Eucalyptus musoides, *Goniacal macrostemon*,
with understory of scattered shrubs. (small leaved - pretty)
Peakesia hiscomaculata, *Rapicilla fusca*, *Macrotona* sp.,

Monistria oppositifolia, *Keyaria*
soil red tending S.M. with *Chloris truncata*,
Stipa sp. and purple flowered Composite (possibly *menunthes*)
Monistria numerous on Composite. *Keyaria* no specific
food plant could be ascertained.

27881 Mallee community with *titree*, some clumps
of *Koehia microphylla*. On cleared area, *Chloris truncata*
Eragrostis sp. dominant. soil red - slightly gravelly
- tending S.M. Sight record only Dedalus

27885 *Callitris glauca* associates, cleared area of red compact
soil, *Stipa*, *Eragrostis* and *Chloris truncata*.
Sight record only Chort - 2 small *Monistria* nymphs.

27900 Marsden

27905 Compact area in large expanse of S.M.
Moraba sp., *Austroicetes pusilla*
Danthonia dominant with *Salsola* and *Stipa*
Moraba's on *Danthonia*. Dedalus - Chort as sight
records.

27912 Red compact area with scald mosaics.
Austroicetes pusilla (L5)
Danthonia, *Chloris truncata*, some *Stipa*.

27915 Caragabal

27920 *Euc microcarpa* and *Callitris glauca*. Scald
mosaic on red compact soil, clothed mainly with
Stipa - some *Danthonia* - odd clumps of *K. microphylla*
No acridids

27942

Greenfell.
